

# **Nash Exchange User Agreement**

Non-US Jurisdictions

Last updated: 15/02/2019

## Preamble

- 1 Please read this User Agreement (the “**Agreement**”) carefully. This Agreement is a contract between you as a User (“**you**” or the “**User**”) and the Neon Exchange AG, a company duly incorporated and validly existing under the Laws of Liechtenstein, having its registered offices at Schaanerstrasse 27, 9490 Vaduz, (the “**Company**” or “**We**”), setting forth the terms and conditions on the use of the services provided by the Neon Exchange AG as further set forth below (the “**Terms**”). This Agreement applies to any access or use of our website located at [www.nash.io](http://www.nash.io) (the “**Website**”), the Nash Exchange high-performance decentralized trading and payment platform (hereinafter “**Nash Exchange**”), the Nash Exchange Extension (the “**Nash Extension**”), our iOS mobile applications (the “**App**”) and any use of other services related to or utilizing any of the foregoing, which we refer to in this Agreement, collectively, as our “**Services**.” The Terms of this Agreement govern both individuals and entities that access and/or use the Services even if such individual or entity does not register a user account. If you are using our Services in the United States, you are not engaging with Nash Exchange AG, Liechtenstein, but with Nash Exchange Inc., a Delaware corporation and a wholly-owned subsidiary of Neon Exchange AG.

### I. Modifications

- 2 At any time, we may make changes to the Terms set out in this Agreement, including, but not limited to, changes in our Services, technology and regulation, and for other reasons. If we do, we will provide you notice of such changes by posting the updated Terms on our Website and changing the “Last Updated” date above. Any amended Terms will become effective immediately after they are posted. Your continued use of the Services following the effective date of such changes will constitute your acceptance of such changes. If you do not agree to any amended Terms, you must discontinue using the Services.

### II. Acceptance of Terms

- 3 By accessing, downloading or using the Nash Exchange or the Nash Extension, or any of the Services, you agree that you have read, understood and accept all of the Terms and conditions contained in this Agreement and you acknowledge to be bound by the Terms described herein and all Terms incorporated by reference. In particular, by using the Nash Exchange and the Nash Extension, you also signify your consent to our Privacy Policy, of which a current version is available at [https://nash.io/pdfs/Nash\\_Privacy\\_Notice\\_v1.pdf](https://nash.io/pdfs/Nash_Privacy_Notice_v1.pdf) as well as any other terms and provisions referred to herein. If you do not agree to this Agreement, do not use the Nash Exchange and the Nash Extension.
- 4 By accepting this Agreement, you acknowledge that neither the download of the Nash Extension software nor the use of any Nash Exchange Services shall constitute, or be deemed to constitute, a partnership, association, joint venture or other co-operative entity between the Company and the Users or between the Users.

### III. Eligibility

- 5 By accessing or using the Services, you represent and warrant that you will not use any Services if the laws applicable to you owing to your country of residency and/or citizenship prohibit you from doing so in accordance with this Agreement and you acknowledge that the Company is not liable for your compliance and failure to comply with such laws. You represent and warrant that you will not be using any Services offered by the Company for any illegal activity, including without limitation money laundering, fraud, blackmail, extortion, ransoming data, financing of terrorism or any other violent activities or prohibited market practices.
- 6 The Services are intended solely for users who are 18 or older and who satisfy the criteria described in these Terms. By using the Services, you represent and warrant that you are of the legal age of majority in your jurisdiction as is required to access and use the Services and enter into corresponding arrangements, if any. You must ensure that you use the Services and access the Nash Exchange only in your own name and, if you are acting on behalf of a legal entity, that you are authorized to use the Services on behalf of this legal entity. You hereby represent and warrant that you are fully able and competent to accept the Terms, conditions and obligations, and to make the affirmations, representations and warranties set forth in this Agreement and to abide by and comply with this Agreement. You further represent that you are legally permitted to use the Services in your jurisdiction, including owning cryptographic currency or tokens of value (collectively “**Crypto Assets**”) and interacting with the Nash Exchange in any way.

### IV. The Nash Exchange

- 7 The Company has conceptualized a decentralized crypto–crypto exchange based on blockchain technology. The Nash Exchange combines the performance of centralized exchanges with the security of decentralized exchanges. The Nash Exchange can process many trades per second, but it is also non-custodial and decentralized, such that it is impossible for a hacker who compromises any part of the system to steal user funds. To achieve both of these properties, the Nash Exchange moves the majority of required logic to off-chain protocols and computation, but enforces through smart contracts the constraint that any final state change to a user’s account must come with proof that a user has agreed to such a change.
- 8 The Nash Exchange consists of four major components (collectively referred to hereinafter as the “**Software**”): the *matching engine*, which takes orders from users and matches them against one another; a *state-signing protocol* that governs off-chain interactions between users and the matching engine; a *central accounts service*, which provides user identity and authentication services for the system; and the *smart contracts* (collectively referred to hereinafter as the “Smart Contract System”) that users interact with to move funds into and out of the exchange.

## V. User Accounts

- 9 In order to be eligible to use all of our Services, Users will be required to register a personal User account (the “**Account**”). As part of the Account opening process, you will be required to provide us with current, complete and accurate information as requested on the registration page. Such information includes personal information, including, but not limited to, your name, address, email address, date of birth, taxpayer identification number, government identification number, photograph of your government-issued ID or other photographic proof of your identity, information regarding your business and information regarding your bank account. You hereby authorize the Company, directly or through a third party, to make any inquiries we consider necessary to verify your identity or protect against fraud, including but not limited to: (a) querying identity information contained in public reports (e.g., your name, address, past addresses or date of birth); and (b) taking action the Company reasonably deems necessary based on the results of such inquiries and reports. You further authorize all third parties to which such inquiries or requests may be directed to respond fully to such inquiries or requests. The Company will have no liability or responsibility for any permanent or temporary inability to access or use any Services, including your inability to interact with service providers through the Website, as a result of any identity verification or other screening procedures.
- 10 You hereby give your consent to us to keep a record of such information and authorize us to make the inquiries, whether directly or through third parties, that we consider necessary to verify your identity or protect you and/or us against fraud or other financial crime, and to take action we reasonably deem necessary based on the results of such inquiries. You furthermore acknowledge and agree that your personal information may be disclosed to credit reference and fraud prevention or financial crime agencies and that these agencies may respond to our inquiries in full. The Company reserves the right to maintain any Account registration information after closure of an Account for business and regulatory compliance purposes, subject to applicable law and regulation.
- 11 You will create and authorize unique user account credentials that may include one or more username, password, pin code, API key, two-factor authentication instance or other access controls (the “**Account Access Information**”). The Company will be storing your encrypted Account Access Information in its Central Accounts Service (CAS).
- 12 The CAS manages user accounts and authenticates users across all Services. The most important role of the CAS is to store encrypted key data on behalf of a user and serve it to client software. This key data includes blockchain keys (e.g., for NEO and Ethereum) used for state-signing and also RSA keys that are used to authenticate requests with the matching engine. The Company will at no point in time have access to raw key data and stores the Account Access Information only such that it can be decrypted client-side and used to interact with the exchange.
- 13 The User must maintain the security of their Account by protecting their Account Access Information from unauthorized access or use and must promptly notify the Company if the User discovers or suspects any unauthorized access or use of their Account or any security breaches related to the Account. The User is responsible for all activities that occur under

their Account and accepts all risks of any authorized or unauthorized access to the Account. The Company may refuse to permit any User to register an Account or limit the number of Accounts that an individual or entity may establish at its sole discretion.

## **VI. Suspension of Account**

- 14 The Company reserves the right in its sole discretion to suspend Accounts temporarily or permanently. This account-blocking or -suspension may be a consequence of, among other things, inconsistent information regarding the identity of a User, a pending compliance or security review, the request of a third party or the request and/or order of an authority, governmental body, regulator, legal entity, law-enforcement agency, etc. The User understands and agrees that they may not be able to access funds easily if their Account is suspended. The Company determines at its sole discretion which reasons are to be deemed valid for the suspension of an Account.

## **VII. Nash Extension**

- 15 When creating an account with the Nash Exchange, the User will be prompted to create a **Wallet**. The Wallet consists of a number of different blockchain wallet addresses upon different chains, interaction with which is only possible through the use of cryptographic private keys, which will be provided to the User in encrypted form and which will never be stored in any way by the Company.
- 16 The Nash Extension is a tool to browse blockchain-enabled services provided by the Company, including but not limited to the Wallet and the Nash Exchange Services. The Nash Extension is provided for download on the Website.
- 17 The access to your Wallet (and any tokens held in it) is available only with the access information and codes issued to you when establishing the Wallet (the "**Wallet Access Information**"). When choosing a password for your Wallet, remember that your Wallet may be subject to hacking attempts, the success of which depends on the strength of the code you created.
- 18 Please note that your Wallet is under your sole responsibility and will always remain under your sole control. While the Nash Extension enables you to access your Wallet with ease, the Company has no access to your Wallet and the tokens contained therein nor any control over its use. Consequently, the Company has no liability whatsoever regarding the use of your Wallet and/or any tokens held in or controlled through the Wallet.
- 19 For the protection of your interests, it is imperative that you keep safe and guard the Wallet Access Information issued to you. You acknowledge and accept that you are solely responsible for the security of your Wallet as well as for the tokens held on it. The Company will not be liable or accountable, nor shall be deemed to have any liability or accountability, for any loss or damage regarding your failure to keep your Account or Wallet Access Information secret and protected.

- 20 Furthermore, the Company has no control over your actions or transactions made using the Services. With that in mind, the Company will have no liability to you or to any third party for any claims or damages that may arise as a result of any actions or transactions that you engage in while using the Services. The Company shall not be liable for the acts or omissions of any third parties, nor will they be liable for any damage that you may suffer as a result of interacting with any third parties. We reserve the right to cancel or refuse to process any transaction owing to requirements of any applicable laws or regulations, and without prior notice.

### **VIII. Rules of Conduct**

- 21 All Users of the Nash Exchange commit to refrain from:
- Posting, requesting, transmitting, rendering or otherwise making available or creating through or in connection with the use of the Software any materials that are or may be: (a) illegal/non-compliant and or threatening, harassing, degrading, hateful or intimidating, or which otherwise fail to respect the rights and dignity of others; (b) defamatory, libelous, fraudulent or otherwise tortious; (c) obscene, indecent, pornographic or otherwise objectionable; or (d) protected by copyright, trademark, trade secret, right of publicity or privacy or any other proprietary right, without the express prior written consent of the applicable owner.
  - Posting, transmitting or otherwise making available through or in connection with the use of the Software any virus, worm, Trojan horse, Easter egg, time bomb, spyware, scareware, malware or other computer code, file or program that is or is potentially harmful or invasive or intended to damage or hijack the operation of, or to monitor the use of, any hardware, software or equipment (each, a “**Virus**”).
  - Using the Nash Exchange for any purpose that is fraudulent or otherwise tortious or unlawful, including but not limited to illegal gambling, money laundering, fraud, blackmail, extortion, ransoming data or the financing of terrorism, intellectual property infringement, or violent or abusive activities.
- 22 If you are blocked by the Company from accessing the Services (including by blocking your IP address), you agree not to implement any measures to circumvent such blocking (e.g., by masking your IP address or using a proxy IP address). Use of our Services in connection with any transaction involving illegal products or services is prohibited. The Company reserves the right to suspend your Account temporarily or permanently or otherwise to restrict your use of the Services if any violation of this Section VIII occurs.

### **IX. Risks of Blockchain and Smart Contracts**

- 23 The User acknowledges that the Company provides solely an execution-only service and does not advise on the merits of any particular transactions, trading risks or their tax consequences. The Company furthermore does not provide any other financial, investment or legal advice in connection with the Services. If we or our representatives do provide any market commentary, or any other information, the act of doing so is incidental to your

relationship with us and such information may not be considered as investment or financial advice and should not be construed as such. Any decision to buy or sell any Crypto Assets is solely your decision and Nash Exchange will not be liable for any loss suffered.

- 24 You acknowledge that Blockchain applications and Smart Contract technology and protocols are generally still in an early development stage and therefore of experimental nature and that therefore trading Crypto Assets is highly risky. You acknowledge and accept all consequences of sending any Crypto Assets to the Smart Contract System. Crypto Asset transactions may not be reversible. Once you send Crypto Assets to an address, you accept the risk that you may lose access to your Crypto Assets indefinitely. If, for example, an address may have been entered incorrectly, then the true owner of the address may never be discovered, and your Crypto Assets will never be returned.
- 25 In particular, but not concluding, you understand the inherent risks listed hereinafter:
- **Risk of Software Weaknesses:** You understand and accept that the underlying Software, the Nash Exchange, the Smart Contract System and other involved software and technology and technical concepts and theories are still in an early development stage and unproven, why there is no warranty that the process for receiving, use and ownership of Crypto Assets will be uninterrupted or error-free and why there is an inherent risk that the Software and related technologies and theories could contain weaknesses, vulnerabilities or bugs causing, inter alia, the complete loss of Crypto Assets. You agree not to hold the Company accountable for any related losses.
  - **Regulatory Risk:** You understand and accept that the blockchain technology allows new forms of interaction. There is a possibility that certain jurisdictions will apply existing regulations, or introduce new regulations addressing blockchain technology-based applications, which may be contrary to the current setup of the Smart Contract System and which may, inter alia, result in substantial modifications of the Smart Contract System and/or the Nash Exchange, and/or the business model of the Company, including its termination and the loss of the NEX token, respectively Crypto Assets.
  - **Risk of Abandonment / Lack of Success:** You understand and accept that the Nash Exchange may be abandoned for a number of reasons, including, but not limited to, lack of interest from the public, lack of funding, or lack of commercial success or prospects (e.g. caused by competing projects).
  - **Risk of Theft:** You understand and accept that the Smart Contract System, the underlying Software, the Nash Exchange, other involved software, other technology components and/or platforms may be exposed to attacks by hackers or other individuals that could result in theft or loss of Crypto Assets.
  - **Risk of Blockchain Mining Attacks:** You understand and accept that, as with other cryptocurrencies, some blockchains used for the Smart Contract System are susceptible to mining attacks, including but not limited to double-spend attacks, majority mining power attacks, “selfish-mining” attacks, and race condition attacks.

Any successful attack presents a risk to the Smart Contract System and the expected proper execution and sequencing of Crypto Asset transactions.

## **X. Limitation of Liability**

- 26 You understand that there is no warranty, implied or statutory, for the Software, in particular the Smart Contract System, the Nash Exchange, the Nash Extension, the App and any other Services provided by Company, to the extent permitted by applicable law. Except when otherwise stated in writing, the Software is provided “as is” without warranty of any kind, either expressed or implied, including, but not limited to, the implied warranties of merchantability and fitness for a particular purpose. By using the Nash Exchange, the Services and/or downloading the Nash Extension you agree that the entire risk as to the quality and performance of all Services is with you.
- 27 In no event unless required by applicable law will the Company be liable to you for any damages, including any general, special, incidental or consequential damages arising out of the use or inability to use the Services, including but not limited to:
- a) Security problems experienced by the User of the Nash Exchange, the Software or any other Services, e.g., unauthorized access to Users' Wallets and/or accounts;
  - b) Mistakes made by the User, e.g., forgotten passwords, payments sent to incorrect addresses, and accidental deletion of the Wallet;
  - c) Technical failures in the hardware of the User of any related Software or Nash Exchange Services, e.g., data loss owing to a faulty or damaged storage device;
  - d) Software, e.g., corrupted files, incorrectly constructed transactions, unsafe cryptographic libraries and/or malware affecting the extension;
  - e) Actions or inactions of third parties and/or events experienced by third parties, e.g., bankruptcy of service providers, information security attacks on service providers, and fraud conducted by third parties.
- 28 To the fullest extent permitted by applicable law, you hereby waive and disclaim any right or cause of action against the Company in any jurisdiction that would give rise to any damages. The Company shall not be liable to you for any type of damages, even if and notwithstanding the extent that the Company has been advised of the possibility of such damages. You agree not to seek any refund, compensation or reimbursement from the Company, regardless of the reason and regardless of whether the reason is identified in this Agreement.
- 29 You understand and agree that the Company shall not be liable and you shall be responsible for all liability in connection with any force majeure event, including acts of God, labor disputes or other industrial disturbances, electrical, telecommunications, hardware, software or other utility failures, Software or Smart Contract bugs or weaknesses, earthquakes,

storms or other nature-related events, blockages, embargoes, riots, acts or orders of government, acts of terrorism or war, technological change, changes in interest rates or other monetary conditions and, for the avoidance of doubt, changes to any Blockchain-related protocol.

- 30 To the fullest extent permitted by applicable law, you release the Company from responsibility, liability, claims, demands and/or damages (actual and consequential) of every kind and nature, known and unknown (including, but not limited to, claims of negligence), arising out of or related to disputes between you and the acts or omissions of third parties. To the fullest extent permitted by applicable law, you will indemnify, defend and hold harmless, and reimburse the Company from and against any and all actions, proceedings, claims, damages, demands and actions (including without limitation fees and expenses of counsel) incurred by the Company.
- 31 Some jurisdictions do not allow certain limitations on liability. Only limitations that are lawful in the applicable jurisdiction will apply to you and our liability will be limited to the maximum extent permitted by law.

## **XI. Taxes**

- 32 You are solely responsible for complying with any applicable law. You acknowledge and agree that the Company is not responsible for determining whether or which laws may apply to your transactions, including tax law. The Company bears no liability for determining whether taxes apply to any of your transactions, or for collecting, reporting or remitting any taxes arising from any transaction. The users of the Nash Exchange are solely responsible to determine what, if any, taxes apply to their Crypto Asset transactions. The Company is not responsible for determining the taxes that apply to any transaction of Crypto Assets.

## **XII. Limitation or Termination of Access and Services**

- 33 You hereby acknowledge that your right to use the Nash Exchange and all Services is limited by this Agreement, and, if you violate or if, at any point, you do not agree to any of the Terms set forth herein, your right to use the Services shall immediately terminate, and you shall immediately refrain from using the Services. Any use of the Services that violates these Terms is strictly prohibited and can, at Company's sole discretion, result in the immediate revocation of your limited rights granted by this Agreement.
- 34 Any of such actions, including the termination of your rights to use the Services, may be applied by the Company permanently or temporarily. In such an event, the Company may terminate access to the Services. Upon termination of your Account, your Account login credentials for the Services may not be reserved and it may not be possible to reinstate them. You hereby acknowledge and agree that the Company is under no obligation to compensate you for any losses of any kind whatsoever resulting from the cessation of Services as set forth hereinabove, whether such closure was voluntary or involuntary, and you hereby irrevocably waive any demand or claim regarding the above. Notwithstanding the

foregoing, you acknowledge that the Company has the right to discontinue the Nash Exchange in its entirety, or any part thereof, at any time at Company's sole discretion.

35 Without derogating from the generality of the foregoing, each of the following constitutes an "Event of Default":

- Where any representation or warranty made by you is or becomes untrue;
- Any other circumstance where the Company reasonably believes that it is necessary or desirable to take any action set out in the below paragraph;
- If you involve the Nash Exchange in any type of fraud or illegality and if the Company suspects that you are engaged in money laundering activities or terrorist financing or other criminal activities;
- Commencement of proceedings or investigations against you by a governmental authority;
- Cases of a violation by you of the requirements established by any applicable laws, such materiality determined in good faith by the Company;
- Any other situation where – in our sole discretion – it would not be in the best interest of the Company that you continue to be a User.

36 If an Event of Default occurs, the Company may at its absolute discretion, at any time and without prior notice and without liability of any kind, take one or more of the following actions, without excluding any further actions that are not specified here :

- Terminate this Agreement without notice;
- Terminate your right to use the Services or any portion thereof, and block or prevent your future access and use of the Services or any portion thereof;
- Limit, suspend, revoke, terminate, modify or delete your access to the Services at the Company's sole discretion without prior notice or liability, if you are, or if the Company suspects (in its sole discretion) that you are failing to comply with the Terms of this Agreement.

### **XIII. Proprietary Information**

37 The Company and all of the content that appears related to the Services, including but without limitation, the use of the Website's name, Software, web technologies, source code, concepts, artwork, photos, animations, sounds, methods of operation, moral rights, documentation and virtual items, is the exclusive property of the Company, or is being used with permission from its licensors. The Company (or its licensors, as applicable) retains all rights, titles and interest in and to the Services, their content and all intellectual property rights relating thereto, including without limitations all copyright, patent, trademarks, logos, design rights and any other proprietary rights connected with the Services. You agree that you have no right or title in or to the Services. Nash Exchange's name and logo, and any other trademarks included in the Services, are trademarks of Nash Exchange.

- 38 All third-party product names that may legitimately appear in relation to the Nash Exchange Services are trademarks of their respective owners. No transfer or granting of any rights under any names, marks or logos is made or is to be implied by any provision of these Terms of Use or by making use of the Nash Exchange Services, and all rights in such names, marks or logos are reserved by the Company or their respective owners, as applicable.
- 39 It is strictly forbidden to use, for any purpose, any materials existing on the Website, the Nash Exchange or the Nash Extension or any other Services. Any such unauthorized use, which infringes the copyright, the trademarks or other laws, can be subjected to civil or criminal sanctions.

#### **XIV. Third-Party Content**

- 40 To the extent that the Nash Exchange or the Website contains links or any other information to third-party websites, tokens or services, the Company does not control the availability and content of those websites, tokens and services. Any concerns regarding any such third-party websites, tokens and/or services, or any link thereto, should be directed to such particular website and/or service provider. The Company makes no representation or warranty regarding any content, goods, tokens and/or services provided by any third party, even if linked to through the Website or the Service. The linked sites and tokens are not under the control of the Company and may collect data or solicit personal information from you. The Company is not responsible for their content, business practices or privacy policies, or for the collection, use or disclosure of any information those sites may collect.

#### **XV. Transfer of Data**

- 41 You hereby acknowledge that, in order for us to provide our Services, we may process, transfer and store information about you in the United States and other countries, where you may not have the same rights and protections as you do under local law. However, if we transfer your personal data out of the EEA, we ensure a similar level of data protection by implementation of at least one of the following safeguards:
- We only transfer your personal data to countries that have been deemed to provide an adequate level of protection for personal data by the European Commission.
  - We have concluded specific contracts with service providers, which have been approved by the European Commission (standard contractual clauses for data transfers between EU and non-EU countries).
  - We only transfer data to providers based in the US if they are part of the Privacy Shield, which requires them to provide similar protection.
- 42 For any further Information, please read our Privacy Policy (available at [https://nash.io/pdfs/Nash\\_Privacy\\_Notice\\_v1.pdf](https://nash.io/pdfs/Nash_Privacy_Notice_v1.pdf)) for information about how we collect, use and disclose information about the Users of our Services.

## **XVI. Severability**

- 43 If, for any reason, a court of competent jurisdiction finds any provision of the Terms of this Agreement invalid or unenforceable, that provision will be enforced to the maximum extent permissible and the other provisions of these Terms will remain in full force and effect.

## **XVII. Waiver**

- 44 Our failure to exercise or enforce any right or provision of these Terms will not constitute a waiver of that right or provision.

## **XVIII. Arbitration**

- 45 The Users of the Neon Exchange AG agree to arbitrate any dispute arising from or in connection with the Services or this Agreement. Arbitration prevents you from suing in court or from having a jury trial.
- 46 The Parties (in the case of a dispute, the Company and one or more Claimants) shall endeavor to resolve amicably by negotiation any dispute, controversy or claim arising out of or in relation to the Terms, including the validity, invalidity, breach or termination thereof. Any such dispute, controversy or claim that remains unresolved 30 days after either Party requests in writing negotiation under this clause shall be finally resolved by arbitration in accordance with the Swiss Rules of International Arbitration of the Swiss Chambers' Arbitration Institution in force on the date on which the Notice of Arbitration is submitted in accordance with these Rules. The number of arbitrators shall be one. The seat of the arbitration shall be Zurich, Switzerland. The arbitral proceedings shall be conducted in English.
- 47 These Terms shall be governed by and construed in accordance with the laws of Liechtenstein.

## **XIX. Assignment; Entire Agreement**

- 48 The Company may assign this Agreement and/or its legal relationship with you, fully or partially, to its parent company, affiliate, subsidiary or any third party, or in connection with a merger, consolidation, or sale or other disposition of all or substantially all of its assets. This Agreement, including the Privacy Policy (available at [https://nash.io/pdfs/Nash\\_Privacy\\_Notice\\_v1.pdf](https://nash.io/pdfs/Nash_Privacy_Notice_v1.pdf)), together with any other agreements that apply to you, constitute the entire and exclusive agreement between us and you regarding its subject matter and supersede and replace any previous or contemporaneous written or oral contract, warranty, representation or understanding regarding its subject matter.

Neon Exchange AG  
Schaanerstrasse 27  
9490 Vaduz  
Liechtenstein
